# SERIES 7™

The Series 7™ designed by Arne Jacobsen is by far the most sold chair in the history of Fritz Hansen and perhaps also in furniture history. The pressure moulded veneer chair is a further development of the classic Ant™ chair. The four-legged stackable chair represents the culmination of the lamination technique. The visionary Arne Jacobsen exploited the possibilities of lamination to perfection resulting in the iconic shape of the chair. Series 7 represents the chair in the Fritz Hansen collection with the widest range of applications.

## ARNE JACOBSEN 1902-1971

The cooperation between Arne Jacobsen and Fritz Hansen dates back to 1934. But it was in 1952 the break-through came with the Ant™. It was succeeded by the Series 7™ in 1955. This propelled his and Fritz Hansen's names into furniture history. Arne Jacobsen was very productive both as an architect and as a designer. At the end of the 50s Arne Jacobsen designed the Royal Hotel in Copenhagen, and for that project the Egg™, the Swan™, the Swan™ sofa and Series 3300™. Arne Jacobsen was and is an admired and outstanding designer. While the significance of Arne Jacobsen's buildings was less appreciated, his furniture and other design work have become national and international heritage.

## DESCRIPTION

Series of laminated veneer chairs designed by Arne Jacobsen, manufactured by Fritz Hansen.

The shell is in pressure molded veneer. The inner veneer is always beech and the outer veneer is available in 9 different veneers: Maple, Beech, Ash, Elm, Oak, Oregon Pine, Cherry, Walnut or Dark-stained Oak. The children's chair (3177) is only available in Beech or Walnut.
It is also available in 2 finishes; coloured ash (lazur) or lacquered in 9 different colours: White, Light Grey, Dark Grey, Black, Yellow, Orange, Red, Petrol Blue or Sage Green. The children's chair (3177) is only available in coloured ash.
The base for 3107, 3207, 3177, 3187 and 3197 is 14 mm steel tubes (chromed, black or satin chromed) with 4 legs and leg ferrules of black synthetic material. The swivel base for 3117 and 3217 is 14 mm chromed steel tubes and 5 hard-wheel castors with aluminium caps (soft wheels also available).
All models (except for 3177) are also available with front or full upholstery in fabric or leather.
The range of accessories includes short and long linking devices, writing tablet (only 3107), transport dolly, seat and row numbers and large seat cover for improved stackability on upholstered chairs
