

**COLIBRÌ**

DESIGN ODOARDO FIORAVANTI/2011

Symbolic and mimetic at the same time, Colibrì is a new inhabitant of the domestic space. It is the result of a continual line that draws a bird with a rounded head and a long tail - a little diffuser and an adjustable stem to orientate towards the light. In polycarbonate and metal, it is a so discrete object that it never passes unobserved, in both its colour variants of white and green.
