

## STUD TAVOLO

DESIGN DIESEL /2009

Pure outrageous energy, pure striking force for an object that expresses a rock 'n roll lifestyle 100%. Its imposing metal base brings to mind the studs on Diesel belts. Its diffuser immediately recalls mirrored glasses, while its column shape recalls that of a microphone or a lipstick&hellip;every detail has been designed to create a metal-maniac feel. Stud is not merely a lamp, but a luminous totem in a hard rock environment!
