

MADE

plateau | coffee table

The Plateau Coffee Table is a multi-functional piece that can serve as a coffee table, a comfortable seat, or an ottoman on which to rest one's feet. For those wishing to sit low to the ground, the seat can even be removed and used as a stand-alone floor cushion. The rectilinear stainless steel legs and mitered joinery enhance the clean, pared-down lines of the piece. Available in riftsawn white oak or walnut. Upholstery is black leather, but custom upholstery is available by special request.
