

PK9™

The PK9™ is a side chair also known as the “Tulip chair” due to its unique shape. The shape is characterized by the three pieces of satin-brushed stainless steel that act as a column, as legs and carriers of the leather seating element. The inspiration for the shape was a sand imprint of his wife’s behind on the beach. Later, during the design process, Hanne Kjærholm sat in boxes of clay to find the most optimal and comfortable solution.

POUL KJÆRHOLM 1929-1980

Poul Kjærholm was a trained carpenter and continued his studies at the Danish School of Arts and Crafts. He had a particular interest in different construction materials; especially steel which he considered a natural material with the same artistic fineness as other natural materials. Kjærholm was first employed at Fritz Hansen for about a year, where he designed a number of noteworthy chair prototypes. In 1955 Poul Kjærholm initiated his collaboration with manufacturer Ejvind Kold Christensen, which lasted until Poul Kjærholm's death in 1980. In 1982, Fritz Hansen took over "The Kjærholm Collection", developed from 1951 to 1967, designs, which are logical to the minute detail with an aura of exclusivity.
