## Design

Poul Henningsen

## Concept

PH 5 (1958) provides a glare free illumination. The design of the visible reflectors ensures that light is directed both vertically and horizontally. Light is diffused through a sandblasted glass shield located in the lower shade. The inside cone is painted red, and together with the small blue reflector creates a warmer tone of light.

## Finish

White

## Material

Shades: Spun aluminum. Concealing shield: Sand-blasted, glass. Struts: Matte chrome plated or purple, rolled aluminum.

## Mounting

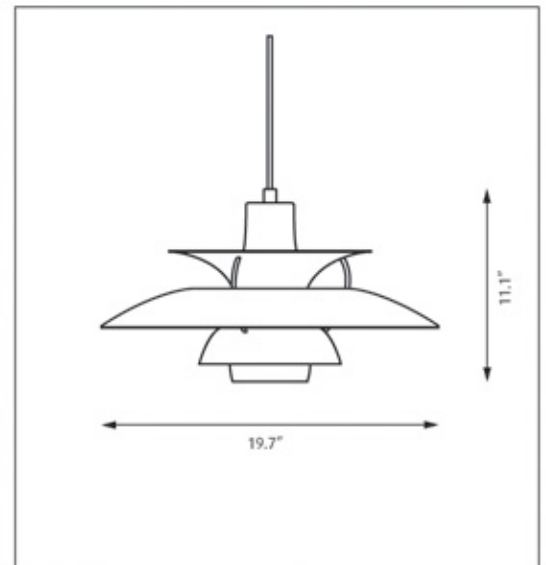

Canopy: White. Cord type: 3-conductor, 18 AWG white PVC power cord. Cord length: 12'.

## Weight

Max. 5 lbs.

## Label

cUL, Dry location. IBEW.

Product code	Light source	Voltage	Finish
PH5	1/23W/CF medium 1/200W/A-23/IF medium	120V	WHT
