

CABOCHE

PATRICIA URQUIOLA
+ ELIANA GEROTTO / 2005

Table lamp composed by spheres of transparent polymethylmetacrylate ordered in a concentric layout, that multiplies the brightness of the central light source. A screen in white satinized blown glass guarantees maximum diffusion of light and prevents glare.

A solid base is provided by the original design of the stem.

VERSIONS: TABLE, FLOOR, SUSPENSION, CEILING, WALL
