

Drop In

The Drop In collection fuses new methods of furniture construction with design simplicity, resulting in a modern sofa with timeless appeal. The sturdy frame has a thin profile contrasted by large cushions. Comfort comes not only from the height and depth of the seat but also from the firm seat cushions that use imbedded coil springs custom made to our specifications in Italy.

Drop In is a modular sofa system that is available as an armchair, two or three seat sofa and one, two and three seat sectional pieces in a range of fabrics.

*Left arm sectional shown. Please specify L for left and R for right armed sectional sofas.
**Amount of cushions included as per illustration.

Premium quality materials and inventive construction techniques ensure the Drop In will outlast other sofas. The frame is made of a combination of durable steel and laminated wood.

The seat cushions have been carefully designed for comfort and utility. Unlike the typical sofa, the Drop In has an independent coil and foam suspension system embedded in each seat cushion. This eliminates any bulky suspension in the frame and allows for the easy removal of seats for moving and cleaning. Seat cushions are made of CFC-free polyurethane, softened by a continuous Dacron® wrap. Back cushions are baffled for even distribution and to prevent shifting of feathers and batting, thereby providing better lumbar support.

Sectionals are shipped as three separate pieces that are easily fasten together. Each sectional comes with a standard corner unit, and 1 seat, 2 seat or 3 seat left and right armed units.

Covers come in a wide selection of specially sourced fabrics and leathers. The fabric covers are removable for cleaning or replacement, where as the leather covers are upholstered on. Legs are hand finished solid wood.
